

# Lake Manyara & Ngorongoro

Lake Manyara & Ngorongoro, 2 Day Camping Safari

## Itinerary

### Day 1 Moshi - Lake Manyara National Park - Mto wa Mbu

After a welcome and briefing at your hotel, you will travel to the Lake Manyara National Park. This small park is a paradise for serious and amateur bird-lovers as this small park is home to over 400 species of birds, including flamingos, pelicans, storks and cormorants. Many mammals, such as bushbucks, waterbucks, wildebeests, zebras, baboons, monkeys, lions and leopards can be seen roaming the forest and the acacia-dotted plains of the park. You will have an unhindered view of the surroundings as the safari vehicle's roof can open up to allow you the best angle for photography. After an extensive game drive in the park you will leave the park in the late afternoon. Tonight you will spend the night under the stars as you camp at a campsite in the small town of Mto wa Mbu.

### Day 2 Lake Manyara - Ngorongoro Crater - Moshi

After breakfast, your safari continues to the Ngorongoro Crater, a UNESCO World Heritage Site. This is the world's largest caldera, a feature formed by the collapse of land after a volcanic eruption. It is approximately 18 km in diameter and home to about 25,000 mammals. In this relatively small area you can find almost all the mammals of East Africa ranging from Grant's and Thomson's gazelles to mountain reedbucks in the forests on the slopes. You might also see spotted hyenas and some of the more than 500 bird species of the area. It is also possible to spot the "Big Five" - lion, elephant, buffalo, rhino and leopard in the few hours spent in the crater. After lunch at a picnic spot you will leave the crater and return to Moshi by the early evening.

## Items included:
