

City Sightseeing Santander

City Sightseeing Santander

Rolling hills, towering cliffs, diverse beaches...Santander has now evolved into one of Spain's most popular resorts in Spain. Let City

Sightseeing highlight all of the attractions along the route, one of the main Stops being at the Paseo Pereda which echoes the character

of the old city having escaped the fire of 1941. The area has been declared a Historic Artist site and used to be home to commercial

docks, warehouses and traders

Hop off at the Museo Maritimo and experience a historical journey through the Spanish Sea where you can take a profound look at

different areas of the underwater and maritime world. The museum was built as a tribute to the region and its waters and offers an insight

into the world of fisheries, marine biology and life at sea. Discover the stars at the city Planetario. Immerse yourself in a display of suns,

moons, planets, galaxies and satellites underneath the dome-shaped screen. Nearby is the Palacio de Festivales with its comprehensive

programme of plays, films and workshops. Home to the arts; enjoy music, plays and dance at this magnificent venue. Hop off at The

Palacio de la Magdalena, a beautiful early 20th century palace which sits on the shoreline. The palace was originally built as the summer

residence of the Spanish Royal Family until 1931. The grounds of this magnificent building offer picturesque walks, a museum, beach,

playground and a small zoo
